JEANETTE ALLEN - HUNTERVILLE

"I've come across TurboWeb after reading about their Content Management tool in the local newspaper. I contacted them and was impressed by the knowledge of how to improve our business presence on the web, as well as making the process for updating content on our website quick and painless. In the past we had to pay someone to make changes, and that got expensive. The TurboWeb team are approachable and really listen to their staff. They continue to make recommendations on how we can improve our web presence, and are readily available for any queries we may have."

THOMAS MCGRAW - STONEHURF NEW ZEALAND AND AUSTRIA

"I've been so impressed with TurboWeb's service and flexibility with the fact that they've changed our functioning sites to their format. It is great to deal with "geeks" that understand that we don't speak programmers' language and nor do we have a degree to! But the real gem was the simplicity as the sites are just so easy to negotiate and use.

We had used other companies in the past, but found the speed speed with TurboWeb actually increased my desire to keep my website up to date at the time as it is a pleasure to use in real time! The TurboWeb team solved a lot of our PayPal problems and thanks to them our web site are up and the reporting function is a real asset."

SWM MODULES TO ENHANCE YOUR WEBSITE
